

Automatic Heat Transfer Press HP-10P**Feature**

- Fully Automatic air driven type.
- The horizontal pressurization prevents puckering.
- Pressure and Temperature control can be made easily by digital.
- The upper press plate is processed with teflon and aluminium,
- therefore the plate does not soil easily, and can be cleaned easily.
- The auxiliary plate can be attached easily, depends on products.
- (Dimensions: 350mm x 280mm)
- (※Air compressure is required)

Automatic Heat Transfer Press HP-10P

本体

製品名	エア駆動式全自動転写用プレス
形式	HP-10P
使用電源	1P100V
消費電力	ヒーター：220W
最大消費電力	2A
温度 (MAX)	195℃
加圧力 (MAX)	1.31kg/cm ²
コテ寸法	100×100mm
機体寸法	398(W)×350(L)×625(H)mm
重量	約25kg
